# Organic Formulations

Belinda Carli  
B Nat Ther., Dip Cos Sci

## Contents

|  |     |
|--|-----|
| <b>Chapter 1:</b><br><b>Integrate organic principles into personal care development</b>          | 4   |
| <b>Chapter 2:</b><br><b>Select appropriate ingredients for organic personal care products</b>    | 43  |
| <b>Chapter 3:</b><br><b>Apply organic principles to formulate organic personal care products</b> | 117 |

Please note this book is used for training students, so refers to a 'Dropbox link' in several places. This Dropbox link contains a huge amount of additional information that is only suitable when also studying the lectures that accompany this training. If you would like access to the dropbox folders, please enrol in our study only or full certificate study.

## Table of Contents

### Integrate organic principles into personal care development

| Item                                       | Page |
|--|------|
| 1. Organic principles                      | 6    |
| 1.1 Organic definitions                    | 6    |
| 1.2 COSMOS                                 | 9    |
| 1.3 NaTrue                                 | 18   |
| 1.4 Australian Standard AS6000             | 22   |
| 1.5 Other certifiers in Europe             | 23   |
| 1.6 Certified organic in Japan             | 24   |
| 1.7 Certified organic in USA               | 25   |
| 1.8 Other International certification      | 26   |
| 2. Cleaning and sanitation                 | 27   |
| 2.1 Physical control methods               | 27   |
| 2.2 Chemical control methods               | 29   |
| 2.3 Cleaning methods for your facility     | 29   |
| 3. Investigating suitability for use       | 30   |
| 3.1 Checking raw materials                 | 30   |
| 3.2 Checking the method of manufacture     | 33   |
| 3.3 Formula document checklist             | 34   |
| 4. Documentation collection and generation | 35   |
| 5. Integration of organic principles       | 37   |
| Appendix A: Answers to activities          | 39   |

## Table of Contents

### Select appropriate ingredients for organic personal care formulas

| <b>Item</b>   | <b>Page</b> |
|---|-------------|
| 1. Impact of going organic on formulation development       | 45          |
| 1.1 Ingredient limitations                                  | 45          |
| 1.2 Formulation issues                                      | 48          |
| 2. Generally permitted ingredients and their considerations | 49          |
| 2.1 Preservatives   | 49          |
| 2.2 Gums and thickeners                                     | 53          |
| 2.3 Lipids  | 59          |
| 2.4 Fragrances and essential oils                           | 73          |
| 2.5 Emulsifiers   | 89          |
| 2.6 Solubilisers  | 97          |
| 2.7 Surfactants   | 98          |
| 3. Review selected materials for compliance and performance | 109         |
| Appendix A: Answers to activities                           | 111         |
| Appendix B: Commonly approved preservatives                 | 113         |

## Table of Contents

### Apply organic principles to formulate organic personal care products

| <b>Item</b>  | <b>Page</b> |
|--|-------------|
| 1. Formulation issues with organic products  | 119         |
| 1.1 Issues with the brief  | 119         |
| 1.2 Issues with stability  | 122         |
| 2. Developing the organic formula  | 123         |
| 2.1 Preliminary development steps  | 123         |
| 2.2 Specific development steps   | 127         |
| 3. Formulating cleansing products  | 129         |
| 3.1 Soaps – traditional bar or liquid type   | 129         |
| 3.2 Foaming cleansers  | 134         |
| 3.3 Crème cleansers and exfoliants   | 139         |
| 4. Formulating toners, micellar waters, masks and balms                                | 142         |
| 4.1 Toners and hydrating mists   | 142         |
| 4.2 Micellar waters  | 144         |
| 4.3 Masks  | 147         |
| 4.4 Balms  | 151         |
| 5. Formulating gels and serums   | 156         |
| 5.1 Organic gels   | 157         |
| 5.2 Organic serums   | 159         |
| 6. Formulating cream (emulsion) products   | 165         |
| 6.1 Organic oil in water emulsions   | 166         |
| 6.2 Organic water in oil emulsions   | 171         |
| 6.3 Organic traditional beeswax/borax cold creams                                      | 174         |
| 7. Formulating hair care products  | 177         |
| 7.1 Organic shampoo  | 177         |
| 7.2 Organic conditioner  | 182         |
| Appendix A: Template for product specifications, formulation and method of manufacture | 187         |
